

Education Research Grant 2025: Expression of Interest form

Form Preview

Information for applicants

* indicates a required field

Please note:

The RACGP is pleased to call for expressions of interest (EOI) to apply for the 2025 Education Research Grant (ERG) opportunities. Submission of an EOI is a required step to be eligible for an ERG. Only successful EOI submissions will be invited to submit a formal full application.

Before completing this application form, you should have read the **Education Research Grant 2025 Guide** which is available [here](#).

It is crucial that you read the Eligibility and Selection criteria and instructions to ensure a high quality submission.

Incomplete applications and/or applications received after the closing date will not be accepted. Access to the form is automatically blocked at the deadline.

If you have any questions regarding the eligibility criteria, please email the RACGP Education Research team at gpresearch@racgp.org.au

Application closing date

Friday 31 May 2024 at 11.59pm AEST.

Grant funding dates and amount

There are up to 8 (eight) \$150,000 grants available for a 12-month project.

The Education Research Grants 2025 funded period will commence on 1 January 2025.

Privacy statement

I agree to provide the following information to the RACGP for the purposes of verifying my application's eligibility for an Education Research Grant - 2025 application round. *

- Yes
- No

Some of the information you provide The Royal Australian College of General Practitioners (RACGP) on this form (such as your name) is personal information. The information you provide on this and subsequent is used by the RACGP in the administration of your application for an ERG. Your application cannot be processed without the information. As part of the routine process of delivering this grant program, the information you provide may be disclosed to relevant third parties, such as venues or other participating Research Teams. To view our privacy statement, click [here](#).

Description of role, including responsibilities and input *

Word count:

If you have applied for more than one ERG as principal investigator, please comment below on your capacity to lead more than one project, in the event that you were successful (e.g., Please clarify your allocated research time including for ERG applications and other current grants, and how the research team will support).

Is the principal investigator an RACGP staff member? *

- Yes
 No

RACGP staff member organisational unit details

For the application to be considered, the principal investigator must receive support and approval from the staff member's direct Manager and endorsement from the relevant Chief to undertake an Education Research Grant. Please attach evidence of approval/endorsement (email will suffice) that indicates discussions/arrangement regarding the following:

- RACGP staff employment fraction impact
- Support provided to undertake the research project

Staff member's Department/Team

Manager's name

Executive team leader's name (relevant Chief)

Team member details

Identify and describe the members of your team, indicating their roles and expected input into the project and how they meet the eligibility criteria. Please refer to the Eligibility and Selection Criteria guidelines, and ensure that research team includes at minimum the following members:

- Medical Educator with expertise in GP training
- Expertise in education research
- Expertise in academic general practice
- Novice or early career researchers (e.g., PhD candidates and current or recent Academic Registrars)

Research teams must have active, collaborative relationships with regional GP training teams, which will facilitate the regional delivery and translation of research projects.

Inclusion of GP registrars, recent Fellows, medical students, GP supervisors and training practices is also strongly encouraged.

You may add more team members as required.

Team member name *

Brief description of their role and expected input into the project.

Clarify how the team will meet this criterion 'Research team must have active and collaborative relationships with regional GP training teams which will facilitate the regional delivery of research projects' *

Word count:

Have you discussed your proposal with the relevant Director(s) of Training and/or the appropriate National Clinical Lead relevant to the project?

Part Two - Research proposal

* indicates a required field

Research project title, goals and research questions

Project title *

Clearly state your project's goals and research questions. *

Word count:

Must be no more than 250 words.

RACGP Education Research Priorities

Which of the RACGP Education research priorities are applicable to your project? *

- Attraction and recruitment into General Practice training
- Integration of general practice vocational education and training with University, hospital, and post Fellowship spaces
- Enabling and building positive training experiences in current and evolving training environments
- Implementing and evaluating initiatives to support the International Medical Graduate/Migrant Doctor training journey
- Exploring the implications and impacts of emerging Artificial Intelligence technologies in General Practice Training
- Exploring best practice approaches to how Aboriginal and Torres Strait Islander values, ways of knowing, being and doing and a holistic worldview approach to health and healing are embedded across GP training, including content and pedagogical methods, to improve cultural safety
- Recruitment, selection, support, and retention of high-quality General Practice supervisors
- Assessment in General Practice Training, including trainee selection

Form Preview

Understanding the implications for GP training of trainees, supervisors and/or medical educators working part-time

Proposal for a project that does not fit within at least one of these broad priority areas may be considered if a compelling case is presented.

Does your project fit within any of the nine research priority areas above?

- Yes
 No

Justification for project outside the 2025 ERG priority areas

Please provide a compelling reason why your proposed research project should be considered. *

Word count:

Must be no more than 250 words.

Background to the project, including knowledge gaps being addressed

Clearly state the background to the research and how the knowledge gap was identified? *

Word count:

Must be no more than 500 words.

Research design and methodology

Clearly outline the proposed research designs and methods. *

Word count:

Must be no more than 300 words.

Ethical considerations
